

► **Presentation**

The World Table Tennis for Health Festival (WTT4HF) was created with the idea of having a global event that brings together the various initiatives generated by the ITTF Foundation. The WTT4HF promotes the positive benefits of playing table tennis, not only for people with neurodegenerative diseases but also for disease prevention and staying active in general. The players, affected by neurodegenerative diseases, and the accompanying persons are encouraged to participate to the WTT4HF **not only to compete but also to connect and socialize.** Indeed, the events included in the WTT4HF are:

- World Parkinson's Table Tennis Championships.
- World Alzheimer's Table Tennis Championships.
- World Table Tennis for Health Congress, a 2-day event with presentation sessions only in the afternoon and evening
- Healthy Side Activities, healthy and social activities directly run during the WTT4HF

The event should take place in the middle of October. The ITTF Foundation is open to discuss on other options.

WTT4HF Edition	2023 - GRE	2024 - FRA	2025 - SWE	2026 - CHN
Number of Players	76	149	189	Expected: 250

By 2028 and 2029, the ITTF Foundation is expected to reach around 300 registered players.
