SAFETY MEASURES

- Opt for portable tools and machines with reduced weight
- Wear suitable handling gloves
- Organise the flow of goods in the workshop so that unnecessary or avoidable handling is avoided
- Where necessary, wear ear protection
- Have a safety kit at hand at the cutting or assembly workshops
- Keep supply materials as close as possible to the work area
- On site, give preference to handling by several people when no mechanised assistance is possible

Step 6

For this step, use the two wooden strips b5 that have notches. Repeat this step 2 more times.

Assemble b2, b4 and b5 and fix them with screws.

Assemble c1 on both sides and fix them with screws.

Assemble the plates c2 at the bottom and fix them with screws.

To avoid any risk of injuries, round these angles by cutting c2 as depicted above.
You only need to do this step once.

Assemble b2, b3 and b5 and fix them with screws.

Assemble c1 on both sides and fix them with screws. Assemble the plates c3 at the bottom and fix them with screws.

Assemble the wooden strips b1 on b5 and fix them with screws.
Place the legs inbetween the other two table legs created in step 7. Place the wooden strips b6 on the upper side, fix them in the notches. Then, fix the wooden strips b7 with screws as shown above.
